

## Zipper's MaxFlow and High Flow Air Filter Kits

Made in  
USA

#117-440C Assembled

#117-440 MaxFlow Kit

### Complete MaxFlow Air Filter Kits

*Here's a nice power increase that's easy to install and easy on the budget!*

Our MaxFlow air filter kit is designed to completely replace the stock air cleaner assembly, featuring our Max Flow element. This serviceable, pleated element is over 2-3/4" deep to really let that engine breathe **yielding up to 5 additional HP over the stock system!** Also included is a one-piece cast backing plate with internal crankcase venting and mounting hardware. Fits fuel injected and carbureted Twin Cam® engines equipped with the factory TC88 "football" cover. The MaxFlow filter is recommended for use on modified engines with high flow exhaust. **Available with standard aluminum cast, black or chrome plated backing plate. Bolt it on and feel the difference!**

If you have a S.E. Stage 1 Performance Air Filter Kit on your bike you should consider a **MaxFlow Upgrade Kit**. The MaxFlow Stage 1 Upgrade Kit includes the MaxFlow filter and mounting hardware - simply replace the S.E. filter. Takes about 5 minutes to install - *the difference is immediately noticeable!*

MaxFlow Air Filter 2 3/4"

HighFlow Air Filter 2 1/4"

Made in  
USA

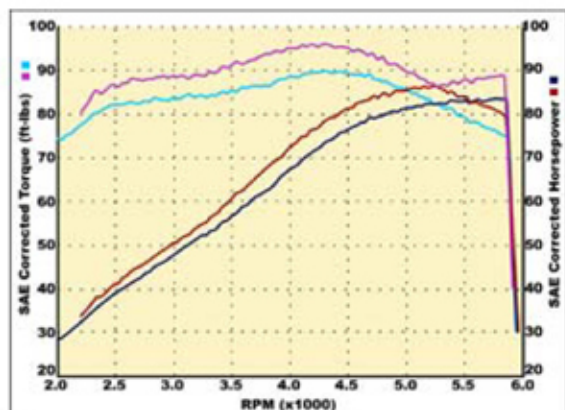

### Complete HighFlow Air Filter Kits

These kits are similar to the MaxFlow air filter kits, except the filter is the standard 2-1/4" deep.

Like the MaxFlow Kit, this kit dramatically increases intake flow and power output without increasing the overall width of the air cleaner - providing the same leg clearance as stock. Fits fuel injected and carbureted Twin Cam® engines equipped with the factory TC88 "football" cover. The HighFlow kit is recommended for any size engine. **Available with standard aluminum cast, black or chrome plated backing plate.**
