News from Zipper's Performance

Nov 2009

Give Your EFI Twin Cam® Some N.A.D.S.

ThunderMax N.A.D.S. is a complete bolt-on nitrous system. **Add up to 25 to 40 additional horsepower!** All nitrous override functions are completely controlled by the ThunderMax, unlike other devices TMax NADS requires only one base map for all engine operation. *Fits 2001-2010 Big Twin Delphi Fuel Injected Harleys (except 2008-2010 FLH models)*

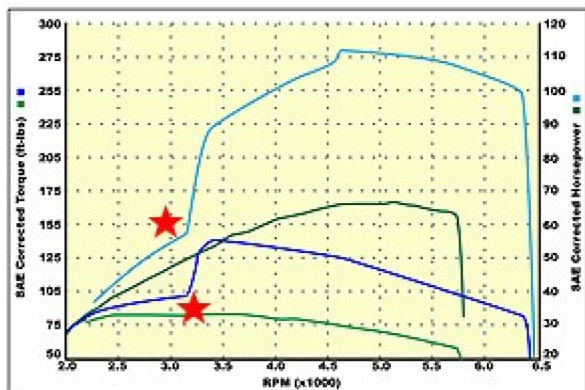

Note: Installation is (bolt on) for 96 CI engines with aftermarket exhaust. Modified engines or larger displacement engines will require larger injectors and custom mapping for proper, safe operation of the engine when Nitrous is activated
