Get Your ThunderMax at This Event!

ThunderMax® is the most powerful, self-tuning fuel management system on the market. Designed specifically for EFI H-D models, ThunderMax® represents the future of smart technology. Whether installing ThunderMax® on a stock injected bike, or upgrading to performance pipes, free breathing intake, cams or other performance parts, ThunderMax® will continually tune any Fuel Injected Harley® engine for maximum performance.

Zipper's Performance Products will be installing our industry-leading ThunderMax® EFI systems at this event including a limited number of NEW ThunderMax® modules for 96" and 103" 2011-up Softail® and 2012 Dyna® models!

NEW! #309-361 - ThunderMax for 2011 Softail® Models
NEW! #309-380 - ThunderMax for 2012 Softail® and Dyna® Models

Contact Zipper's Performance to purchase your module in advance and schedule installation!

Check Out the Industry's Hottest Exhaust Systems!

Pre-engineered ThunderMax® calibrations designed specifically for these brands deliver a "Hassel Free - Out of the Box - Bolt-On and Ride" experience. Get your ThunderMax® from the Pros and take advantage of custom calibrations for the industry's finest exhaust brands. Zipper's has exhaust systems from **D&D®**, **Khrome Werks®**, and **Rinehart®** available for sale and installation during this event.

We endure many miles on our test bikes so you don't have to. The dyno room can be a harsh environment. Proper load based fuel and spark curve mapping required to establish the optimal combination of power, throttle response and drive-ability is not the best way to break in your new motorcycle engine. Pipe discoloration, and overheated engines with accelerated wear and tear **ARE NOT** a part of the ThunderMax® customer experience. ThunderMax® pre-engineered calibrations provide real time tuning solutions that address these common rider concerns.
